International Journal of Fracture

CONTENTS OF VOLUME 41 (1989)

Vol. 41, No. 1, September 1989

W.H. MÜLLER	The exact calculation of stress intensity factors in transformation toughened ceramics by means of integral equations	1
T.G. SHAWKI, T. NAKAMURA and D.M. PARKS	Line-spring analysis of surface flawed plates and shells using deformation theory	23
R.D. GREGORY	The spinning circular disc with a radial edge crack; an exact solution	39
T.-L. SHAM and Y. ZHOU	Computation of three-dimensional weight functions for circular and elliptical cracks	51

Vol. 41, No. 2, October 1989

	In Memoriam: Jerold L. Swedlow	77
T.L. NADERSON	Crack tip parameters for large scale yielding and low constraint configurations	79
P.F. JOSEPH and F. ERDOGAN	Surface crack problems in plates	105
L. SCHOVANEC and J.R. WALTON	The dynamic energy release rate for two parallel steadily propagating mode III cracks in a viscoelastic body	133

Vol. 41, No. 3, November 1989

T. NICHOLAS, M.L. HEIL and G.K. HARITOS	Predicting crack growth under thermo-mechanical cycling	157
L. BANKS-SILLS and D. SHERMAN	On quarter-point three-dimensional finite elements in linear elastic fracture mechanics	177
A. BOCHENEK and G. PROKOPSKI	The investigation of aggregate grain size effect on fracture toughness of ordinary concrete structures	197
M. KOTOUL and Z. BÍLEK	On modelling of stress wave/fracture interaction in brittle bodies subjected to dynamic fracture	207
M. IMANAKA, W. KISHIMOTO, K. OKITA, H. NAKAYAMA and H. NAGAI	Fatigue life estimation of adhesive bonded shaft joints	223

Vol. 41, No. 4, December 1989

R.V. MAHAJAN and K. RAVI-CHANDAR	An experimental investigation of mixed-mode fracture	235
K.-C. WU	On the crack-tip fields of a dynamically propagating crack in an anisotropic elastic solid	253
X. HEPING	The fractal effect of irregularity of crack branching on the fracture toughness of brittle materials	267
X.X. XU, Q.G. CAI, Y. SU and W.D. MA	Notch root strain and stress distributions in power hardening materials	275
Q. JIANG and J.K. KNOWLES	On the direct determination of the near-tip stress field for the scattering of SH-waves by a crack	283
M. KACHANOV and J.-P. LAURES	Three-dimensional problems of strongly interacting arbitrarily located penny-shaped cracks	289

AUTHOR INDEX, VOL. 41 (1989)
